

### **IN THE SPECIFICATION**

Please amend the Specification on page 21, paragraph 3 and page 51, paragraph 1, as follows:

“Although aspects of one implementation are depicted as being stored in memory, one skilled in the art will appreciate that all or part of systems and methods consistent with the present invention may be stored on or read from other computer-readable media, such as secondary storage devices, like hard disks, floppy disks, and CD-ROM[[:]] ~~a carrier wave received from a network such as the Internet;~~ or other forms of ROM or RAM either currently known or later developed. Further, although specific components of data processing system have been described, one skilled in the art will appreciate that a data processing system suitable for use with methods and systems consistent with the present invention may contain additional or different components.

“A computer readable medium can be a magnetic or optical or other tangible medium on which a program is recorded, ~~but can also be a signal, i.e., analog or digital, electromagnetic or optical,~~ in which the program is embodied for transmission.”
